Skills

JavaScript, Htm5I, CSS, Python, Flask,Django, PostgreSQL, SQLCipher
React, Postman, Github, Axios, Node.js, Java, Commerce JS, Git, Next.js

Experience

DevMountain /Student-Engineer

August 2021 - December 2021

Projects

Music Player - [Github|Demo](#)

JavaScript|Html|CSS

Everyone loves music, so I decided to make a simple music player using Javascript.

Space Invaderz - [Github|Demo](#)

Python|Pygames

A fun little game made using the Pygames library from Python.Inspired by a classic, space invaders.

Online Store - [Github|Demo](#)

Javascript|React|Html|Commerce.js

To better my understanding of React i made an online store where you can buy items using commerce.js

Education

DevMountain / Certificate

August 2021 - December 2021

In DevMountain, I learned how to build static websites using HTML,CSS, and Javascript. Not only that but I also learned about Node.js, PostgreSQL, and Python. Then I learned to put those skills to use by building applications/websites.
